PROFILE

- Ambitious and self-driven Fullstack Developer with strong self-learning discipline and leadership under pressure.
- Completed military command training and led soldiers in high-stress combat situations.
- Currently enrolled in HackerU's Fullstack Development program while mastering additional technologies independently.
- Fluent in Arabic (native), Hebrew, and English.

WORK EXPERIENCE

Israel Border Police (Magav) — 2024-2025
Shooting Instructor, Team Commander, Sector Commander

- Commanded and trained teams during operational deployments, including combat missions and high-pressure incidents.
- Led intensive firearms instruction and safety courses for soldiers, developing clear training programs and ensuring high standards.

Golani Brigade, IDF — 2020 – 2023
Combat Soldier, Commander, Sergeant

- Completed the commanders' course as a trainee; later served as an instructor and commander in two subsequent courses.
- Led operational missions, team training, and managed logistics in challenging and rapidly changing environments.
- Demonstrated leadership and composure under fire during critical incidents, including the October 7th conflict at Motsav Paga.

Independent Projects & Coding Experience — 2020 – Present
Fullstack Developer

- Built and published browser games and a full-featured calculator.
- Developed and designed personal portfolio websites from scratch.
- Completed an excellent C#/ASP.NET project in high school, integrating HTML, CSS, and JavaScript.
- Continuously learning modern web technologies; currently studying in the HackerU Fullstack Development Program.

PERSONAL STATEMENTS

Driven to learn. Eager to lead. Ready to deliver real results.
Always pushing boundaries, committed to excellence in every project.
